Documentation

(Dated: 14/2/2022)

This is the documentation for the React Website designed for Arda (Digital IT Company). This documentation contains all the folder structure, file tree, components and naming conventions, editable content components and files and name tags to change the content typed in.

Please go through the below instructions and steps to understand the Website structure, files, folders, directories, images, content etc.

Development:

The Website has been developed with the help of following languages, tools, utilities, plugins, dependencies etc.:

- ReactJs
- Reactstrap
- Bootstrap
- HTML/CSS
- JavaScript
- SASS (SCSS)
- Node-Sass
- PostCSS
- FontAwesome
- React-Router
- React-Router DOM
- Firebase (Form Data – Credentials already provided in email)
- Nucleo Icons pack (Free)
- BLK Design System React (Open source - Link)

All dependencies, libraries, pack, etc. can be re-installed by typing *npm install* command in the terminal opened in main directory.

Website Structure (Tree):

Original Document (14/2/22)

This PC > Downloads > Arda-Project > src > views > IndexViews

Name	Date modified	Type	Size
BookingSection	2/11/2022 12:43 PM	JavaScript File	6 KB
